

YOUR HAUNTED HOUSE

Design your own haunted house to take place at your school. Consider the rooms that you would use, the experiences you would create for visitors and the supplies you would need to set it up and create spooky decorations. Write a list of your required materials and a description of your haunted house, including scary characters and different sections. You may even want to include a home for real ghosts too! Draw a birds-eye view of your design below to show the layout of your haunted house.
